

Hydroacoustics and Biological Evaluation of Bridge Foundations 7 April 2021, 9am–10:15am California Fish Passage Advisory Committee

The California Fish Passage Advisory Committee is hosting a webinar 7 April from 9am to 10:15am on Hydroacoustics and Biological Evaluation of Bridge Foundations. The webinar will be presented by Caltrans Senior Fish Biologist Melinda Molnar, and will include information on:

- Foundation types, including application, constructability, and biological pros and cons;
- Principles of hydroacoustic impacts to fish and aquatic species;
- Avoidance and attenuation;
- Monitoring and reporting; and
- Case study analysis.

At the conclusion of the presentation, there will be time for questions and answers.
